Thanks Michelle! I sincerely thought I wouldn't hear from you - multiple people have told me it's the EPAs position that you won't evaluate your folks so I ended up sending the 225 to Charlene and Tony to validate that I was there. Thanks for taking the time to fill this out - whether you were supposed to or not I truly appreciate it!!!!

I can't believe you guys are still working on it! Have they started the remedial work yet?

See you on the next one,

Angie

Hi Michelle,

I hope this finds you well! I've attached my 225 for the Fruitland Magnesium Fire for your review and signature. I filled it all out except the bottom portion - feel free to change as you see necessary. It was great to work with you again. Thanks for your time on this - it will help me put in for my Type 1 PSC qual.

V/r,

Angie
